EXPERIENCE

Expedia Group | Associate Software Development Engineer Intern
Gurgaon, India | June 2018 - July 2018
· Part of Expedia Worldwide Engineering (EWE) - Loyalty Engineering Oneteam (LEO).
· Worked on the DS tool's web application, UI modifications, fixed performance issues and optimised the tool by reducing the overall time taken to process requests.
· Worked extensively on the backend of the Loyalty platform ERS and developing its API.
· Performed Unit, Integration, E2E and Perf testing of the DS and ERS applications.
· Technologies used - Spring Boot, MongoDB, Expedia's UITK, Jenkins
· Project management framework - Agile (Mingle and JIRA)

PSOSN Summer School
IIIT Hyderabad | July 2017
· Worked on extraction and analysis of data from OSNs (Facebook and Twitter) using python ML and scientific libraries.
· Network Analysis and Visualisation using Gephi, NetworkX, igraph

INDEPENDENT PROJECTS

Smart Travel - Optimising Public Transport system
· Web and mobile app based solution to enhance lives of commuters, Department and the staff appointed in public transport. In accordance with requirements of Goldman Sachs.
· Uses ML-based algorithms to predict the occupancy in bus/metro at a particular stop, safest bus route along with cheapest and quickest routes.
· Provides real-time and overall analytics to the Public Transport Department.

FindLoan - A loan aggregation and management Application
· A flexible CMS portal that provides up-to-date information about government Loan schemes to users. Provides users interface to apply for loans online.
· In accordance with the Startup India Hub and requirements of DIPP.
· A well-structured all-in-one portal for applicants and department officials.

EduPal - Helping students explore opportunities in their fields
· Recommends relevant competitions and scholarships to students based on their linkedIn profiles. Uses an ML-based model for making recommendations.
· Suggests students majors and colleges based on their profiles & interests.
· Assigns a tech score to students based on their GitHub contributions.

SafeCitizen Application - Safeguarding citizens against Monkey Menace
· A Smart CMS portal for citizens, PMC and monkey catchers. Also processes CCTV footage to detect monkeys & auto-register complaints.
· In accordance with PMCCare and requirements of Pune Municipal Corporation.

Defect Tracking Tool - Tracking and predicting bug-prone Java classes
· Predict defect-prone files in GitHub repos on the basis of important software metrics.
· Helps in developing reliable software that is maintainable and easy to test.

SELECTED ACHIEVEMENTS

· **Smart India Hackathon 2019** - Lead the team LinkedList under Goldman Sachs (organisation). Won the first award at the Grand Finale.
· **HENNGE (formerly HDE) GIP 2019** - Selected for the Global Internship Program to be held in Tokyo, Japan (Sept 2019). Successfully completed Golang and Network Programming challenges.
· **Niti Aayog Pune Smart City Hackathon 2018 -** Top in priority theme.
· **Smart India Hackathon 2018** - Lead the team LinkedList under DIPP, Ministry of Commerce, won the third award at Grand Finale.
· **HackBMU 2018** - Won the GeeksforGeeks special award (AI track)
· **LinkedIn Wintathon 2017** - Won the third award at the Grand Finale of Wintathon (Machine Learning track).
· **Oracle GHCI Scholarship 2017** - Received the full scholarship to attend the Grace Hopper Conference India 2017 from Oracle.
· **ASU Sustainability Solutions Festival 2015** - Got the full scholarship to present research work at Arizona State University during Sustainability Solutions Festival.
· **Intel ISEF Grand Award 2014** - Won the 4th grand award in Chemistry for research work at ISEF grand finale in LA.
· **Rob and Melani Walton Sustainability Solutions Award 2014** - Won the Special award at ISEF for research work in Chemistry.

RESEARCH WORK

Equipment for for detection and removal of pesticides from the surface of fruits and vegetables | Independent Research | May 2013 - Feb 2015
Applied for a patent (Application number: 75/DEL/2015) at IPO Delhi
